measurement systems, including the activities of the business trading units and risk control unit, compliance with policies and procedures, and calculation of the covered swap entity's initial margin requirements under this part. At least annually, the internal audit function must report its findings to the covered swap entity's board of directors or a committee thereof.

- (g) Documentation. The covered swap entity must adequately document all material aspects of its initial margin model, including the management and valuation of the non-cleared swaps and non-cleared security-based swaps to which it applies, the control, oversight, and validation of the initial margin model, any review processes and the results of such processes.
- (h) Escalation procedures. The covered swap entity must adequately document internal authorization procedures, including escalation procedures, that require review and approval of any change to the initial margin calculation under the initial margin model, demonstrable analysis that any basis for any such change is consistent with the requirements of this section, and independent review of such demonstrable analysis and approval.

§ 624.9 Cross-border application of margin requirements.

- (a) Transactions to which this rule does not apply. The requirements of §§ 624.3 through 624.8 and §§ 624.10 through 624.12 shall not apply to any foreign non-cleared swap or foreign noncleared security-based swap of a foreign covered swap entity.
- (b) For purposes of this section, a foreign non-cleared swap or foreign noncleared security-based swap is any noncleared swap or non-cleared securitybased swap with respect to which neither the counterparty to the foreign covered swap entity nor any party that provides a guarantee of either party's obligations under the non-cleared swap or non-cleared security-based swap is:
- (1) An entity organized under the laws of the United States or any State (including a U.S. branch, agency, or subsidiary of a foreign bank) or a natural person who is a resident of the United States:

- (2) A branch or office of an entity organized under the laws of the United States or any State; or
- (3) A swap entity that is a subsidiary of an entity that is organized under the laws of the United States or any State.
- (c) For purposes of this section, a *for*eign covered swap entity is any covered swap entity that is not:
- (1) An entity organized under the laws of the United States or any State, including a U.S. branch, agency, or subsidiary of a foreign bank;
- (2) A branch or office of an entity organized under the laws of the United States or any State; or
- (3) An entity that is a subsidiary of an entity that is organized under the laws of the United States or any State.
- (d) Transactions for which substituted compliance determination may apply—(1) Determinations and reliance. For noncleared swaps and non-cleared security-based swaps entered into by covered swap entities described in paragraph (d)(3) of this section, a covered swap entity may satisfy the provisions of this part by complying with the foreign regulatory framework for noncleared swaps and non-cleared security-based swaps that the prudential regulators jointly, conditionally or unconditionally, determine by public order satisfy the corresponding requirements of §§ 624.3 through 624.8 and §§ 624.10 through 624.12.
- (2) Standard. In determining whether to make a determination under paragraph (d)(1) of this section, the prudential regulators will consider whether the requirements of such foreign regulatory framework for non-cleared swaps and non-cleared security-based swaps applicable to such covered swap entities are comparable to the otherwise applicable requirements of this part and appropriate for the safe and sound operation of the covered swap entity, taking into account the risks associated with non-cleared swaps and non-cleared security-based swaps.
- (3) Covered swap entities eligible for substituted compliance. A covered swap entity may rely on a determination under paragraph (d)(1) of this section only if:
- (i) The covered swap entity's obligations under the non-cleared swap or

§ 624.9

non-cleared security-based swap do not have a guarantee from:

- (A) An entity organized under the laws of the United States or any State (other than a U.S. branch or agency of a foreign bank) or a natural person who is a resident of the United States; or
- (B) A branch or office of an entity organized under the laws of the United States or any State; and
 - (ii) The covered swap entity is:
- (A) A foreign covered swap entity;
- (B) A U.S. branch or agency of a foreign bank; or
- (C) An entity that is not organized under the laws of the United States or any State and is a subsidiary of a depository institution, Edge corporation, or agreement corporation.
- (4) Compliance with foreign margin collection requirement. A covered swap entity satisfies its requirement to post initial margin under §624.3(b) by posting to its counterparty initial margin in the form and amount, and at such times, that its counterparty is required to collect pursuant to a foreign regulatory framework, provided that the counterparty is subject to the foreign regulatory framework and the prudential regulators have made a determination under paragraph (d)(1) of this section, unless otherwise stated in that determination, and the counterparty's obligations under the non-cleared swap or non-cleared security-based swap do not have a guarantee from:
- (i) An entity organized under the laws of the United States or any State (including a U.S. branch, agency, or subsidiary of a foreign bank) or a natural person who is a resident of the United States; or
- (ii) A branch or office of an entity organized under the laws of the United States or any State.
- (e) Requests for determinations. (1) A covered swap entity described in paragraph (d)(3) of this section may request that the prudential regulators make a determination pursuant to this section. A request for a determination must include a description of:
- (i) The scope and objectives of the foreign regulatory framework for non-cleared swaps and non-cleared security-based swaps;
- (ii) The specific provisions of the foreign regulatory framework for non-

cleared swaps and non-cleared security-based swaps that govern:

- (A) The scope of transactions covered:
- (B) The determination of the amount of initial margin and variation margin required and how that amount is calculated:
- (C) The timing of margin requirements;
- (D) Any documentation requirements:
 - (E) The forms of eligible collateral;
- (F) Any segregation and rehypothecation requirements; and
- (G) The approval process and standards for models used in calculating initial margin and variation margin;
- (iii) The supervisory compliance program and enforcement authority exercised by a foreign financial regulatory authority or authorities in such system to support its oversight of the application of the non-cleared swap or non-cleared security-based swap regulatory framework and how that framework applies to the non-cleared swaps or non-cleared security-based swaps of the covered swap entity; and
- (iv) Any other descriptions and documentation that the prudential regulators determine are appropriate.
- (2) A covered swap entity described in paragraph (d)(3) of this section may make a request under this section only if the non-cleared swap or non-cleared security-based swap activities of the covered swap entity are directly supervised by the authorities administering the foreign regulatory framework for non-cleared swaps and non-cleared security-based swaps.
- (f) Segregation unavailable. Sections 624.3(b) and 624.7 do not apply to a non-cleared swap or non-cleared security-based swap entered into by:
- (1) A foreign branch of a covered swap entity that is a depository institution; or
- (2) A covered swap entity that is not organized under the laws of the United States or any State and is a subsidiary of a depository institution, Edge corporation, or agreement corporation, if:
- (i) Inherent limitations in the legal or operational infrastructure in the foreign jurisdiction make it impracticable for the covered swap entity and the counterparty to post any form of

eligible initial margin collateral recognized pursuant to §624.6(b) in compliance with the segregation requirements of §624.7;

- (ii) The covered swap entity is subject to foreign regulatory restrictions that require the covered swap entity to transact in the non-cleared swap or non-cleared security-based swap with the counterparty through an establishment within the foreign jurisdiction and do not accommodate the posting of collateral for the non-cleared swap or non-cleared security-based swap outside the jurisdiction;
- (iii) The counterparty to the noncleared swap or non-cleared securitybased swap is not, and the counterparty's obligations under the noncleared swap or non-cleared securitybased swap do not have a guarantee from:
- (A) An entity organized under the laws of the United States or any State (including a U.S. branch, agency, or subsidiary of a foreign bank) or a natural person who is a resident of the United States; or
- (B) A branch or office of an entity organized under the laws of the United States or any State;
- (iv) The covered swap entity collects initial margin for the non-cleared swap or non-cleared security-based swap in accordance with §624.3(a) in the form of cash pursuant to §624.6(b)(1), and posts and collects variation margin in accordance with §624.4(a) in the form of cash pursuant to §624.6(b)(1); and
- (v) The FCA provides the covered swap entity with prior written approval for the covered swap entity's reliance on this paragraph (f) for the foreign jurisdiction.
- (g) Guarantee means an arrangement pursuant to which one party to a noncleared swap or non-cleared security-based swap has rights of recourse against a third-party guarantor, with respect to its counterparty's obligations under the non-cleared swap or non-cleared security-based swap. For these purposes, a party to a noncleared swap or non-cleared security-based swap has rights of recourse against a guarantor if the party has a conditional or unconditional legally enforceable right to receive or otherwise collect, in whole or in part, pay-

ments from the guarantor with respect to its counterparty's obligations under the non-cleared swap or non-cleared security-based swap. In addition, any arrangement pursuant to which the guarantor has a conditional or unconditional legally enforceable right to receive or otherwise collect, in whole or in part, payments from any other third party guarantor with respect to the counterparty's obligations under the non-cleared swap or non-cleared security-based swap, such arrangement will be deemed a guarantee of the counterparty's obligations under the noncleared swap or non-cleared securitybased swap by the other guarantor.

§ 624.10 Documentation of margin matters.

A covered swap entity shall execute trading documentation with each counterparty that is either a swap entity or financial end user regarding credit support arrangements that:

- (a) Provides the covered swap entity and its counterparty with the contractual right to collect and post initial margin and variation margin in such amounts, in such form, and under such circumstances as are required by this part; and
 - (b) Specifies:
- (1) The methods, procedures, rules, and inputs for determining the value of each non-cleared swap or non-cleared security-based swap for purposes of calculating variation margin requirements; and
- (2) The procedures by which any disputes concerning the valuation of noncleared swaps or non-cleared security-based swaps, or the valuation of assets collected or posted as initial margin or variation margin, may be resolved; and
- (c) Describes the methods, procedures, rules, and inputs used to calculate initial margin for non-cleared swaps and non-cleared security based swaps entered into between the covered swap entity and the counterparty.

§624.11 Special rules for affiliates.

(a) Affiliates. This part applies to a non-cleared swap or non-cleared security-based swap of a covered swap entity with its affiliate, unless the swap or security-based swap is excluded from
